

Hedges Categories Part 2

# *Full Performance* **Hedges**

There are trees that take on a task and excel in it. They adapt, they are versatile, and definitely don't lose a beat. Evergreens with outstanding foliage that stay true to their character and withstand the different challenges that come with the territory.

# Full Performance Hedges

**Bay Rum Tree**   
(*Pimenta Racemosa*)

# Full Performance Hedges

A trending tree when it comes to landscape design. Especially in south Florida as it is considered highly ornamental. With a peeling exfoliating trunk and aromatic leaves that expel a refreshing citrusy aroma once crushed. Fragrant delicate and fluffy flowers and a compelling display of stiff leathery leaves that build-up and enviable foliage.

**HT: 16-18'**

**SPREAD: 6'**

**CALIPER: 4-5"**

**100 GAL**

## *Why choose it?*

- Enviably foliage
- Performs great under hard winds
- Loves full sun
- Makes for a great privacy hedge both multi and std form
- Salt and drought tolerance
- Perfect fit for narrow spaces

# Full Performance Hedges

**Brazil Beautyleaf**  
(*Calophyllum Brasiliensis*)

# Full Performance Hedges

With a broad growth habit and a dense round crown that adds to its fuller appearance. This sun lover displays a set of leathery dark glossy green leaves. That from time to time flushes in tints of red, spiking its appearance.

## *Why choose it?*

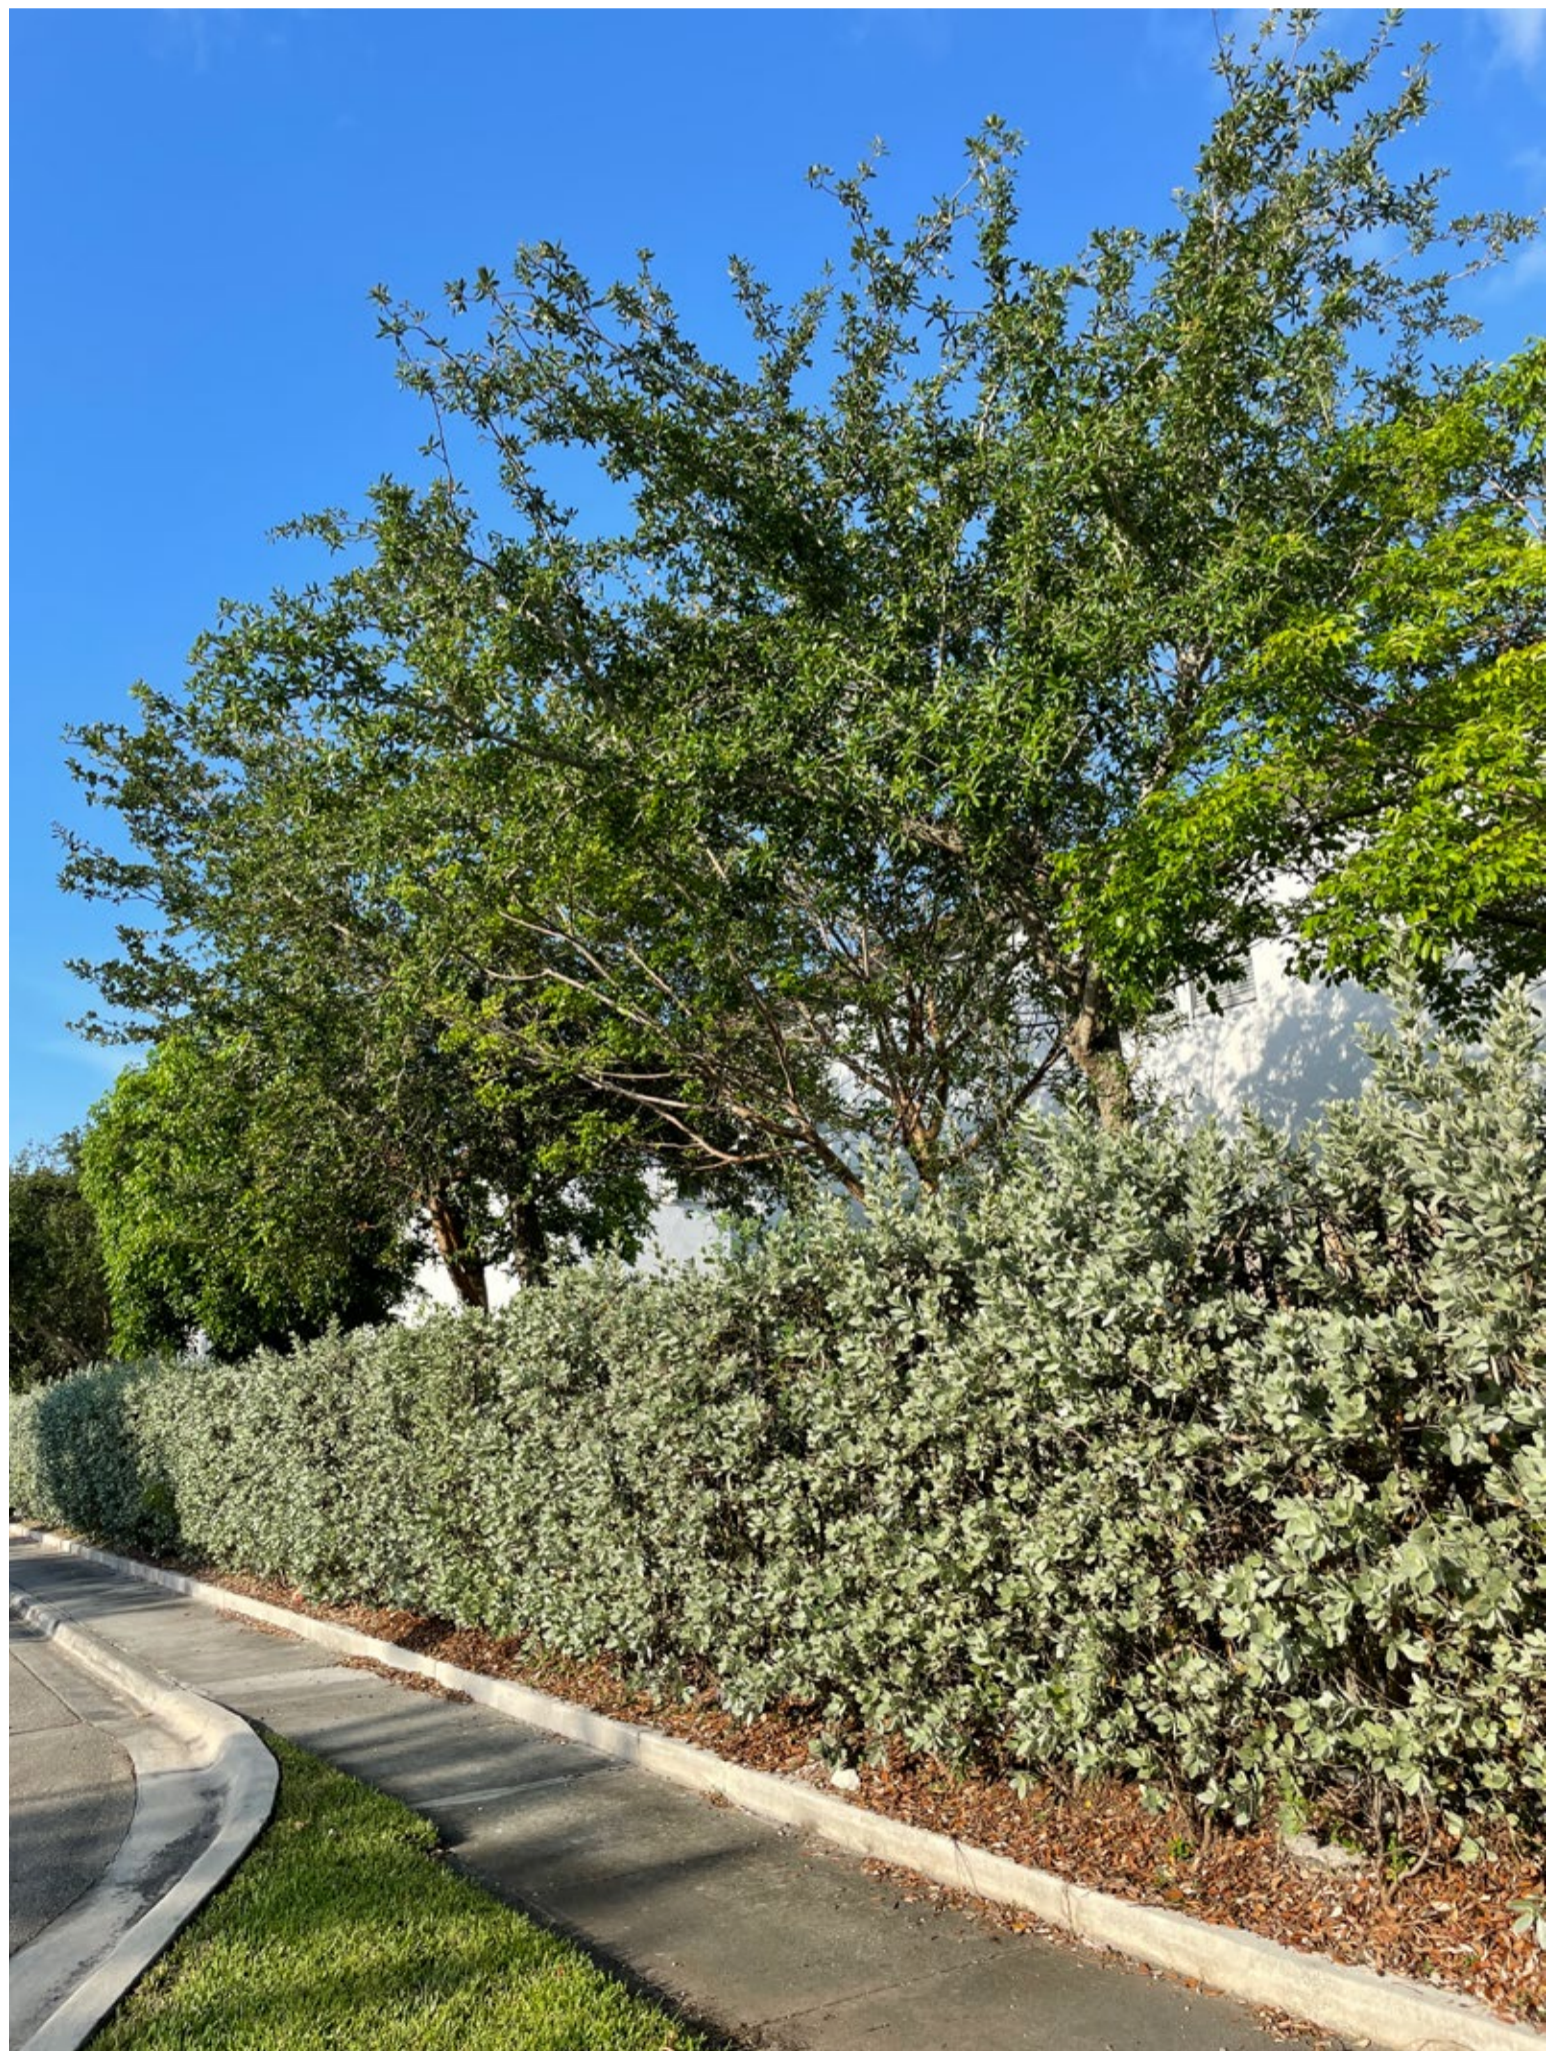

- 🌿 Green shiny foliage all year round
- 🌿 Performs great under hard winds
- 🌿 Loves full sun
- 🌿 Makes for a great privacy hedge for both multi-trunk and standard form
- 🌿 Salt and drought tolerance
- 🌿 Perfect to cover large spaces

# Full Performance Hedges

**Silver Buttonwood**  
(*Conocarpus var. sericeus*)

TREEWORLD  
WHOLESALE

# Full Performance Hedges

---

With velvety-soft silvery foliage, the silver buttonwood is bound to make a stunning hedge! A Florida native, perfect for seaside plantings and a full sun lover. Its unusual color contrasts with all the green or vivid colors in the landscape. But if you prefer something greener you can always opt for its green version the Green Buttonwood.

---

## *Why choose it?*

- 🌿 Silvery foliage
- 🌿 Performs great under hard winds
- 🌿 Loves full sun
- 🌿 Makes for a great privacy hedge for both multi-trunk and standard form
- 🌿 Salt and drought tolerance
- 🌿 Low maintenance

# *Full Performance Hedges*

***Green Buttonwood***  
*(Conocarpus Erectus)*

# Full Performance Hedges

Green is always a safe bet when it comes to choosing your plant material for a hedge! And one of our favorites for the matter is the Green Buttonwood which not only does it have handsome foliage and attractive bark, but this native is a great tree for coastal planting. And a top choice when it comes to a front-line tree, as the Green Buttonwood is extremely tolerant to salt spray exposure. Great for South Florida

## *Why choose it?*

- 🌿 Green handsome foliage
- 🌿 Performs great under hard winds
- 🌿 Loves full sun
- 🌿 Makes for a great privacy hedge for both multi-trunk and standard form
- 🌿 Extreme salt and drought tolerance
- 🌿 Low maintenance

# Full Performance Hedges

**Crabwood**  
(*Gymananthes Lucida*)

# Full Performance Hedges

One of our coastal hammocks favorites is the Crabwood or Oyster tree (*Gynermanthes Lucida*)! Is considered a small round tree with handsome leathery dense foliage. It is extremely well-behaved and considered low maintenance as it adapts great to harsh environments weight heat and poor soil and rarely needs pruning.

## *Why choose it?*

- Native
- Low-maintenance
- Loves full sun to partial shade
- Makes for a great privacy hedge for both multi-trunk and standard form
- Good salt and drought tolerance
- Adapts well in poor soils

# *Full Performance Hedges*

***Eugenia Rhombea***  
*(Red Stopper)*

# Full Performance Hedges

---

The Red Stopper is a beautiful small native, which features small shiny deep green leaves which are pinkish-orange-red when young, giving them the appearance of a flowering tree at a distance when flushing out. This happens a couple of times over the year guaranteeing no dull moment.

---

## *Why choose it?*

- Native
- Low-maintenance
- Loves full sun to partial shade
- Beautiful foliage
- Good salt and drought tolerance

# Full Performance Hedges

**Spanish Stopper**  
(*Eugenia Foetida*)

TREEWORLD  
WHOLESALE

# *Full Performance Hedges*

The Spanish Stopper is a native plant to south Florida found in the tropical hammock. It is well known for being densely foliated so it is great for screening or as a barrier plant. It provides a great cover for privacy making it an outstanding hedge.

## *Why choose it?*

- Native
- Low-maintenance
- Loves full sun
- Densely foliated
- Attractive Bark
- Good salt and drought tolerance

# Full Performance Hedges

**Jamaican Caper**   
(*Capparis cynophallophora*)

# Full Performance Hedges

---

With beautiful foliage of leathery leaves and eye-catching aromatic flowers; initially white but with time turn pink to violet. The Jamaican Caper will prove to be a great element when it comes to the design of hedges, privacy screenings, patios, and garden groupings.

---
